## DETAILED ACTION

### *Priority*

1. If applicant desires to claim the benefit of a prior-filed application under 35 U.S.C. 120 & 119(e), a specific reference to the prior-filed application in compliance with 37 CFR 1.78(a) must be included in the first sentence(s) of the specification following the title or in an application data sheet. For benefit claims under 35 U.S.C. 120, 121 or 365(c), the reference must include the relationship (i.e., continuation, divisional, or continuation-in-part) of the applications.

If the instant application is a utility or plant application filed under 35 U.S.C. 111(a) on or after November 29, 2000, the specific reference must be submitted during the pendency of the application and within the later of four months from the actual filing date of the application or sixteen months from the filing date of the prior application. If the application is a utility or plant application which entered the national stage from an international application filed on or after November 29, 2000, after compliance with 35 U.S.C. 371, the specific reference must be submitted during the pendency of the application and within the later of four months from the date on which the national stage commenced under 35 U.S.C. 371(b) or (f) or sixteen months from the filing date of the prior application. See 37 CFR 1.78(a)(2)(ii) and (a)(5)(ii). This time period is not extendable and a failure to submit the reference required by 35 U.S.C. 119(e) and/or 120, where applicable, within this time period is considered a waiver of any benefit of such prior application(s) under 35 U.S.C. 119(e), 120, 121 and 365(c). A benefit claim

filed after the required time period may be accepted if it is accompanied by a grantable petition to accept an unintentionally delayed benefit claim under 35 U.S.C. 119(e), 120, 121 and 365(c). The petition must be accompanied by (1) the reference required by 35 U.S.C. 120 or 119(e) and 37 CFR 1.78(a)(2) or (a)(5) to the prior application (unless previously submitted), (2) a surcharge under 37 CFR 1.17(t), and (3) a statement that the entire delay between the date the claim was due under 37 CFR 1.78(a)(2) or (a)(5) and the date the claim was filed was unintentional. The Director may require additional information where there is a question whether the delay was unintentional. The petition should be addressed to: Mail Stop Petition, Commissioner for Patents, P.O. Box 1450, Alexandria, Virginia 22313-1450.

If the reference to the prior application was previously submitted within the time period set forth in 37 CFR 1.78(a), but not in the first sentence(s) of the specification or an application data sheet (ADS) as required by 37 CFR 1.78(a) (e.g., if the reference was submitted in an oath or declaration or the application transmittal letter), and the information concerning the benefit claim was recognized by the Office as shown by its inclusion on the first filing receipt, the petition under 37 CFR 1.78(a) and the surcharge under 37 CFR 1.17(t) are not required. Applicant is still required to submit the reference in compliance with 37 CFR 1.78(a) by filing an amendment to the first sentence(s) of the specification or an ADS. See MPEP § 201.11.

The amendment to the first line of the specification, filed 12/3/2007, does not correctly identify the intervening application numbers to establish continuity of the priority claim. Specifically, Application Nos. 08/843,694 and 08/397,100 are not

Art Unit: 1614

applications by the inventor named in the instant application, Richard Veech, and therefore do not satisfy the requirement to reference an application filed by at least one of the same inventors under 35 U.S.C. 120 or 35 U.S.C. 119 (e)(1). In the remarks filed 12/3/2007 (on p. 4), applicant referred to US Patent No. 6,323,100 as Application No. 08/397,100. The correct application No. for this patent is Application No. 09/397,100. Based on the priority claims of Application No. 10/153,873, the priority claims were to application No. 09/843,694, (not 08/843,694) which claimed priority to Application No. 09/397,100 (not 08/397,100), which claimed priority to PCT/US98/05072.

Since the specific reference to the priority claim was not submitted within four months of the filing date (1/26/2004) nor within 16 months from the filing date of the prior application (4/8/2003), the establishment of a benefit of the 3/17/1997 priority date will require a grantable petition, as described above.

The earliest priority claim currently established is to Application No. 10/153,873, with the filing date of 5/24/2002.

### ***Response to Arguments***

2. Applicants' arguments, filed 12/3/2007, have been fully considered but they are not deemed to be persuasive. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either reiterated or newly applied. They constitute the complete set presently being applied to the instant application.
3. Applicant's arguments filed 12/3/2007 have been fully considered but they are not persuasive.

Art Unit: 1614

4. Claims 32-33 are rejected under 35 U.S.C. 102(a) & (e) as being anticipated by Martin et al. (US 6,380,244).
5. Claims 32-33 are rejected under 35 U.S.C. 102(b) as being anticipated by Veech (US 6,207,856).

As described above, the priority claim prior to 5/24/2002 has not been established. Therefore, these rejections are maintained for the reasons of record.

### ***Specification***

6. The amendment filed 12/3/2007 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: the incorporation by reference of Application Nos. 08/843,694 and 08/397,100.

Applicant is required to cancel the new matter in the reply to this Office Action.

It is noted that even if corrected to Application Nos. to 09/843,694 and 09/397,100, the incorporation by reference of Application No. 09/843,694 will still comprise new matter.

### ***Conclusion***

7. No claim is allowed.
8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
